

CSI – Rockies

Be a part of your own CSI team and investigate and solve a mysterious Banff murder! Your team of 4 will compete against other teams to be the best and most accurate at determining the killer, the location, and time the crime took place. After a quick inspection of the crime scene where you'll gather as many clues as possible, your team will head to various locations in town where you'll find important evidence and where everyone you meet is a potential suspect! Use your brains and your portable "CSI Lab Kit" to interpret the

evidence! Your team will need problem solving skills, some map reading skills, and an ability to conduct some interesting experiments in order to be the winning team to solve all aspects of this fun and challenging event.

This event is a unique way to see and explore the town of Banff and is a great way to see how well your group works together as a team! The focus of this event is not on speed but at being the best at conquering a variety of fun and interesting challenges.

Sample Challenges

- Uncover hidden messages
- "Analyze" ink samples
- Piece together a giant animal puzzle
- Use "luminol" to find traces of blood
- Decipher recorded messages
