

## Rocky Mountain “Survivor”

Be a part of your own “Survivor” game as you and your team challenge teams in a variety of tests and contests. This ½ day event can be held in almost any location and uses many of the same game elements as the popular TV show. Your team will have an opportunity to gain “Immunity” for events, earn special rewards, and kick other teams off at the concluding “Tribal Council” by using the “elimination points you’ve earned along the way.

### Sample Challenges

**Wildlife Search:** *With most of your team blindfolded, choose one member to guide them in a search for wild animals. The team that finishes first wins “Immunity at the next event.*

**Animal Puzzler:** *Race against other teams to be the first to build an animal puzzle out of 70 large puzzle pieces. Teams earn elimination points for the order in which they finish and the team that has immunity earns a guaranteed minimum number.*

**Amazing Maze:** *just like the “Labyrinth” game you may have played as a child with a marble and a floating table – except this one requires at least 4 people to hold!*

**Crazy Compass Points:** *Be the first to solve this challenging mental puzzle. Thinking outside the box is what wins the game.*

**Giant Ski Race:** *Just the way it sounds!*

**Tribal Council:** *Once all of the events have been completed, teams will face off against each other at the tribal council and will be able to cast votes against other teams by using their accumulated “elimination” points. Not as simple as it sounds, this final event will require teams to strategize, collaborate and to be deceptive! – Just like the TV show.*
